WASHINGTON, D.C. 20506

NSC REVIEW
COMPLETED

July 16, 1979

MEMORANDUM FOR:

Ben Evans
Executive Secretary to the Director of
Central Intelligence
Central Intelligence Agency

SUBJECT: Recommendations for Declassification

In a memorandum dated May 1, 1979, concerning declassification concurrences, I indicated that the NSC assumes that any recommendation from your Department concerning declassification and/or release of a document represents the views of all relevant components, including your organic agencies. From time to time, the NSC receives recommendations or requests for concurrence directly from Departmental components (i.e., AID, Air Force). The NSC Staff assumes that such recommendations from component agencies incorporate the views of the Departmental entity.

On a related issue, any agency locating in its files NSC documents or White House files relating to the national security pursuant to a FOIA or mandatory review request, should forward such documents to the NSC for direct reply to the requester. Other agency documents in which the NSC has a concurrent reviewing interest will be returned to the originating agency for reply.

Christine Dodson
Staff Secretary
